## Overview

Kevin is a full-time lecturer at the University of the West of Scotland in the division of Mental Health, Midwifery and Health and a registered mental health nurse.

Kevin is currently undertaking a part-time Professional Doctorate with a research focus on the assessment of dementia within the UK High Secure Estate. He has an interest in the care of patients and prisoners within the estate and on how dementia is assessed and intervention is targeted.

### Desired research direction

Research interests include the mental wellbeing of patients and prisoners within the UK High Secure Estate, in line with the assessment and intervention of dementia.

### Target collaborative organisations

Organisations that have an interest in contributing to work on mental health, and well-being of patients and prisoners in line with dementia care.
