

Area of academic expertise - outline

I am a Chartered Environmentalist (CEnv) with a background in environmental policy and regulation. Prior to transitioning into academia in 2015, I spent eight years working across third sector organisations (in collaboration with national and local governments), as well as environmental regulatory bodies. My work focused on key environmental issues including air quality, land contamination, and noise pollution.

My primary research interest lies in the impacts of environmental pollution, with a particular focus on air pollution and soil contamination. I employ a range of advanced analytical techniques in my research, including ICP-AES, ICP-MS, Graphite Furnace-AAS, Flame-AAS, HPLC, and LC-MS.

Recent research projects I have contributed to include:

Investigating the relationship between air pollution and chronic obstructive pulmonary disease (COPD).

Carbon management within the public sector.

Exploring waste management practices in the food industry.

Assessing historical pollution in sediment samples.

Studying metal toxicity in aquatic organisms.

Lean implementation in the petroleum industry.

Evaluating odour emissions from wastewater treatment facilities.

Developing treatment methods for manganese contamination in water systems.

In addition to my research, I regularly serve as a peer reviewer for academic journals and have acted as an external examiner for PhD vivas.

My learning and teaching experience includes serving as currently serve as Programme Leader (MSc Waste and Resource Management), and Module Co-ordinator at undergraduate and postgraduate levels. My current role as Associate Dean: Learning & Teaching involves strategic priorities including Aspire (the signature UWS pedagogy), Student-Staff Liaison Groups, National Student Survey (NSS), and other aspects of learning, teaching and student success.

Beyond my academic duties, I have been an elected member of the University Court, contributing to institutional governance. I served as the School's Equality, Diversity and Inclusivity (EDI) Champion and am a member of the University's Athena Swan Self-Assessment Team. I am also Trustee to Environmental Protection Scotland and the Institution of Environmental Sciences, and have been Trustee to another third-sector organisation.

My skills include:

Strategic leadership

Strategic thinking

Learning & Teaching

Governance

Mentoring

Lateral thinking

Qualifications

Postgraduate Certificate, Teaching and Learning in Higher Education

1 Sept 2015 → Feb 2017

Award Date: 6 Jul 2017

Doctor of Philosophy, Managing human impacts on forest ecosystems: a chromatographic and statistical analysis in the development of a collaborative risk assessment", University Of The West Of Scotland

Oct 2005 → Mar 2012

Award Date: 10 Jul 2012

Bachelor of Science (Hons.), Earth Sciences with Chemistry, University of Paisley
Sept 2001 → 7 Jul 2005
Award Date: 7 Jul 2005
2005 → 31 Oct 2018 Fellow of the Geological Society, FGS
2012 → 2017 Associate Member of the Royal Society of Chemistry, AMRSC
14 Sept 2020 → ... Chartered Environmentalist, CEnv
27 Jan 2017 → ... Fellow of the Higher Education Academy, FHEA
2017 → ... Member of the Royal Society of Chemistry, MRSC
2015 → ... Member of the Institute of Environmental Sciences, MIEEnvSc

Research output

The effects of cannabidiol (CBD) in transport water on the behaviour of ornamental fishes

Jones, M., Alexander, M. E., Vanderzwalmen, M., Snellgrove, D., Talbot, M., Smith, P., Henriquez, F. L., McLellan, I. & Sloman, K. A., 31 Mar 2026, In: *Applied Animal Behaviour Science*. 296, 10 p., 106897.

Biology of the air we breathe: potential impact on health
